

C C Max corp. Solid control Products

Shale Shaker

Linear Motion

Different size of shale shaker for primary solids control to give you benefits in drilling fluids saving for oil gas drilling, CBM and water well drilling, HDD and TBM projects. The high G drying shaker for drilling cuttings treatment.

Centrifuge

Drilling Mud Decanter Centrifuge

Solids control barite recovery, dewatering centrifuges, and High G force centrifuge for waste management ultra fine solids separation. Bowl size from 220mm(9inch) to 550(22inch) available.

Cuttings Dryer

Vertical Cuttings Dryer

Vertical cuttings dryer for OBM/SBM/WBM to maximize the recovery of drilling fluids from the drilling cuttings and minimize the drilling waste. With oil on the cuttings to be less than 5%.

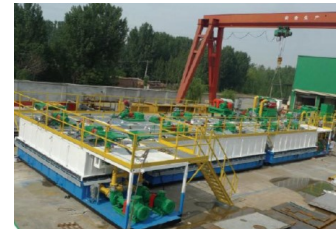

MUD System - Solid Control

Desander Plant
